Muhammd Umer Imtiaz web developer

Jahanian umerimtiaz975@gmail.com 03226533677 Portfolio LinkedIn GitHub

Summary

Full Stack Developer with experience in designing scalable web applications. Skilled in Oracle apex, PHP, and Laravel with focus on performance, security, and real-time data management to deliver smooth user experiences.

Skills

Languages: JavaScript, PHP, SQL

Technologies: Oracle Apex, Laravel, Git, MongoDB, HTML/CSS, Bootstrap, TailwindCSS, MySQL

Experience

Oracle Apex Developer *Multan, PK*
Fatima Group *Oct 2025 – Jan 2026*

- **Oracle APEX Cloud Developer Certification:** Acquired professional credential for cloud-based application development and deployment.
- **Asset Management System:** Spearheaded the end-to-end development of a web-based asset tracker that supports 100+ assets. Designed complex relational database schemas, implemented role-based security (Authorization schemes), and built responsive dashboards for real-time asset monitoring.
- **Inventory Management System:** Architected and coded a full-cycle inventory solution from scratch. Created custom PL/SQL logic for stock calculation and utilized Interactive Grid components for seamless data management.
- **Technical Skills:** Database Modeling (ERD), PL/SQL, APEX Security (Authentication/Authorization), and Interactive Reports & Charts. Optimized database queries and application performance for faster response time.

Back End Developer *Multan, PK*
Fatima Group *May 2022 – Jun 2023*

- Generated and maintained 3+ responsive web applications using HTML, CSS, JavaScript, and jQuery.
- Led development planning for 3+ websites, integrating JSON-based APIs and improving data handling efficiency
- Resolved 20+ technical issues, reducing system downtime and improving user satisfaction
- Implemented responsive design across 10+ pages, increasing mobile user engagement.
- Enhanced user experience by implementing responsive web design and optimizing website.

Projects

Asset Management System

- Developed an Asset Management System supporting asset allocation and return workflows, handling 100+ assets and improving tracking efficiency by 50%.
- Tools Used: Oracle Apex, SQL

Inventory Management System

- Built an Inventory Management System enabling stock tracking, reducing inventory discrepancies by 40%.
- Tools Used: Oracle Apex, SQL

CERTIFICATIONS

Oracle Apex Cloud Developer, mylearn.oracle.com *Oct 2025*

Education

Bahauddin Zakariya University *Sept 2019 – July 2021*
MCS(Computer Science) (GPA: 3.39/4.0)
